

# MAX-8 CPCD35T8

## Ep-Equipment

*With a maintenance free AC motor, a large torque with a fantastic gradeability, powerful traction it ensures a smooth running even on the roughest roads and at the same time ensures a high level of comfort for the user.*

*Max-8 is a multifunctional forklift with full free lift, that can lift up to 3,5 tones.*

**Good view.** The forklift truck is designed for those who want a good view, both front, rear and through the roof rack. This ensures optimum working conditions for the driver.

**Quality.** The forklift truck is reliable as its quality is high. Although the price is low, the quality is high.

**Maximum comfort.** Maximum comfort is guaranteed in the seat with ergonomic positioning of the handles, which ensures that the driver does not experience discomfort while using the forklift.

**Compactly built.** This forklift is an ideal choice for businesses that have narrow spaces and rows, but still have minimum requirements for turning radius.
